## Definitions

**Baseline Allowance** - A quantity of electricity or gas allocated by the CPUC for residential customers based on a percentage of average residential consumption and varying based on type of space heating, type of water heating, season, climatic zone and number of days in the billing period.

**California Climate Credit** - The state charges fees to reduce carbon pollution and increase the use of cleaner energy. These fees are returned to you as a credit. Households receive the electric credit twice a year and gas credit once a year. Small businesses receive the electric credit monthly. Visit [EnergyUpgradeCA.org/credit](http://EnergyUpgradeCA.org/credit) to learn more.

**City of San Diego Franchise Fee Differential** - A fee charged to SDG&E by the City of San Diego for the rights to operate within city streets.

**Climate Zone** - The CPUC established four Climatic Zones in California, based on annual average temperatures.

**Competition Transition Charge (CTC)** - Through this charge, SDG&E recovers costs for power plants and longterm power contracts approved by state regulators that have been made uneconomic by the shift to competition.

**Delivery** - Charges for the costs of owning, operating, and maintaining the transmission and distribution facilities to deliver power to customers.

**Distribution** - This line reflects charges to distribute power to customers. It includes power lines, poles, transformers, repair crews and emergency services.

**DWR Charges** - The Department of Water Resources (DWR) Bond Charge pays for bonds issued by DWR to cover the costs of purchasing power during the electricity crisis. All DWR charges, including the Cost Responsibility Surcharge component of DWR charges, are owned by DWR and not SDG&E. SDG&E collects charges for DWR as an agent of DWR.

**Electricity Generation Charge** - This charge is for the electricity you use and includes charges for the energy provided by both SDG&E and DWR. Electricity from DWR is owned by DWR, not SDG&E. If you purchase electricity from another supplier or buy electricity through SDG&E using hourly pricing, this charge appears only for informational purposes and will be offset by a credit.

**Franchise Fees for Electric Energy Supplied by Others** - This charge pays cities for the right to have transmission and distribution equipment (such as poles and wires) on city streets. This charge collects the franchise fee on the electricity purchased for you by DWR. The franchise fee on the electricity provided to you by SDG&E is included in the SDG&E Electricity Generation Charge.

**kWh (kilowatt hour)** - A common unit to measure electric energy consumption. A kWh equals 1,000 watts of electric power consumed for one hour of time.

**Local Generation Charge** - Recovers the costs associated with generation power suppliers that the CPUC has determined should be recovered from all benefiting customers.

**Nuclear Decommissioning** - This charge pays for the retirement of nuclear power plants.

**Public Purpose Programs** - This charge reflects the costs of certain state-mandated programs (such as low-income and energy efficiency programs).

**Reliability Services (RS)** - The Independent System Operator is required to ensure adequate generation to maintain electric system reliability. This means having enough generating facilities available to meet the demand for electricity at all times. The costs associated with this are passed on to SDG&E customers.

**State Regulatory Fee** - Charged to all utility users to pay for the California Public Utilities Commission (CPUC) operations.

**State Surcharge Tax** - Collected by the State of California for the conservation and development of energy resources in the state.

**Total Rate Adjustment Component (TRAC)** - This legislated charge is a conservation incentive. Customers with usage of less than 130% of baseline receive a subsidy credit. Customers with usage over 130% of baseline make up the difference and cover the cost of the subsidy.

**Transmission** - This charge pays for the delivery of high-voltage electricity from power plants to distribution points near your home or business. It includes the cost of high-voltage power lines and towers, as well as monitoring and control equipment.

household, you need to call SDG&E before the expiration of this notice.

If SDG&E fails to offer you payment arrangements, you may write to the Consumer Affairs Branch of the California Public Utilities Commission (CPUC), State Office Building, 505 Van Ness Avenue, Room 2003, San Francisco, CA 94102, phone: 800-649-7570, email: [consumer-affairs@cpuc.ca.gov](mailto:consumer-affairs@cpuc.ca.gov), prior to disconnection of your SDG&E service.
