

# Math 200a Fall 2020 Homework 1

Due 10/9/2020 by 7pm on Gradescope

*Reading:* Read Chapters 2 and 3 of Isaacs by Friday 10/9. (The reading schedule will not be so fast for later chapters).

*End of Chapter Exercises from Isaacs to write up and hand in:*

**Chapter 1:** 1.2, 1.3, 1.4, 1.7, 1.8.

*Remark:* The exercises in Isaacs are usually all quite interesting. It is certainly worthwhile to work through more of them than the ones that are assigned, if you have the time. Some weeks (but not this week) there may be additional exercises on the homework that I write myself rather than coming from Isaacs.
